

### ❖ One Week School on Nanomaterials Modelling Using SIESTA (SNMM-II)

One week workshop focused on "Nanomaterials Modelling Using DFT Codes" was successfully conducted by the Physics Department from 26<sup>th</sup> to 31<sup>st</sup> December, 2024. The workshop aimed to provide participants with a comprehensive understanding of how various nanomaterials are modeled and their properties estimated using Density Functional Theory (DFT) codes, with a specific focus on the SIESTA software package.
