

3.3 ICT Facilities:

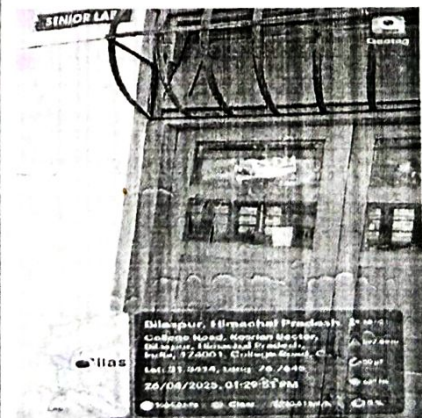

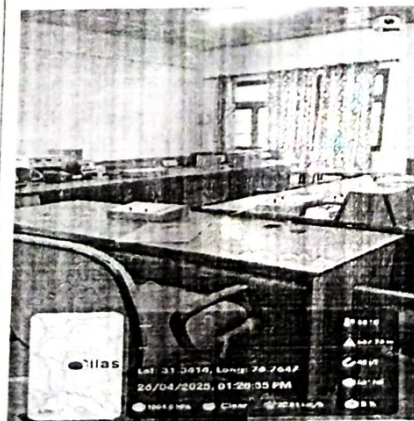

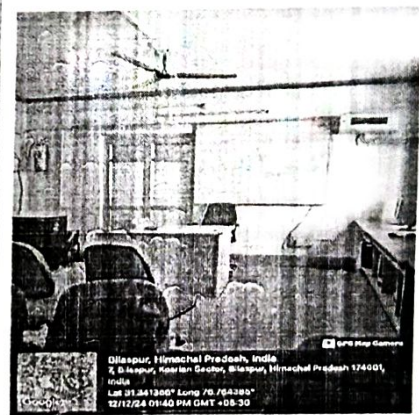

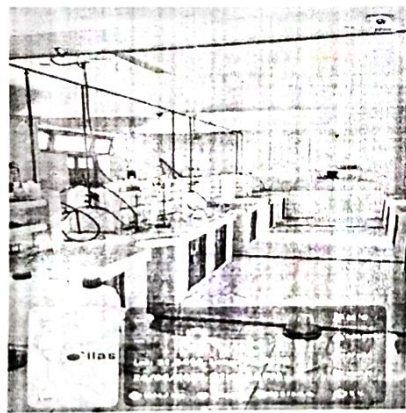

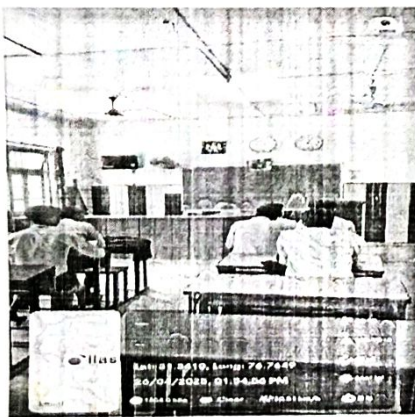

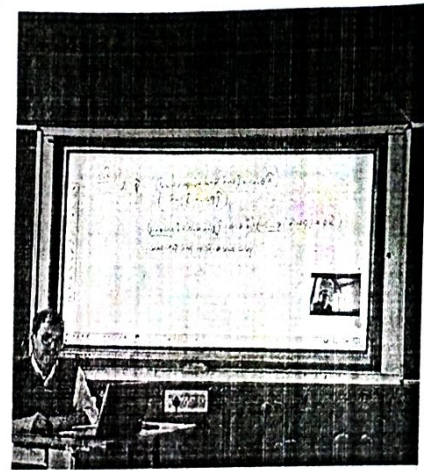

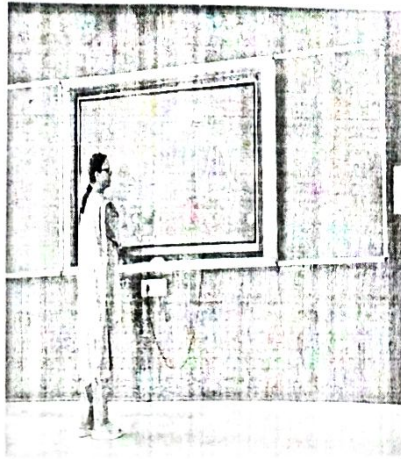

The college has established a robust Information and Communication Technology (ICT) infrastructure to enhance the teaching and learning experience through modern technology. Well-equipped computer laboratories, a dedicated leased-line internet connection, and multimedia tools enable both students and faculty to easily access a wide range of digital resources. This setup not only strengthens students' digital competencies but also supports online learning, effectively bridging traditional education with the rapidly evolving digital landscape.

The institution's IT facilities include 15 interactive panels or LCD projectors installed in classrooms and laboratories, 201 computers and laptops, and a dedicated 55 Mbps leased internet line. Additionally, the Seminar Hall is Wi-Fi enabled and equipped with an LED Smartboard. These resources are effectively utilized by both staff and students to enrich the teaching-learning process.
